

28 February 2017

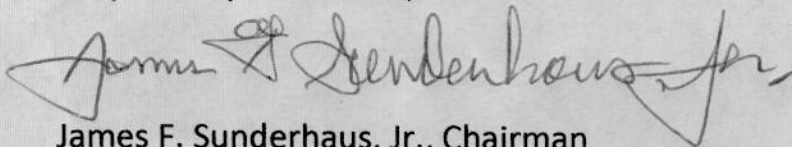

Streets, Public Works, & Utilities Committee Meeting

Members Present: Amy Richter, Patrick Tiettmeyer, Chairman Jim Sunderhaus.
Committee Member Kitty Zech (excused)

Others Present: Council Persons Alana Tucker, Jim Martin, Dennis Dinkelacker,
Council President Mark Waters, & Safety Service Director Tom Braun.

Meeting was called to order @ 19:17pm By Chairman Sunderhaus. Purpose of this meeting is to discuss road/ public works projects & recommend whether to go out for bids on them. Safety service Director Tom Braun described a storm sewer problem on Ruth Le. After researching the project he recommends that we reline the sewer rather than replace it. Cost would be approximately +/- \$62,000. Road work would have to be added to the project. Additionally Roswell between McFarran & Homelawn is also recommended for repair & resurfacing. Tom also stated that Westwood Northern Blvd. is approved however final numbers are not yet available. Funding for these projects will come from our road levy & the motor vehicle tax. After some discussion committee recommended that the projects be put out for bid via a resolution approved by the full council at our next meeting.

Respectfully Submitted,

James F. Sunderhaus, Jr., Chairman
