### **Information of note**

The police department has moved forward in 2023 in several areas.

We have updated equipment and also purchased new equipment to help the police department. These items include handguns, shotguns, tasers, body worn cameras, drone and a ballistic shield.

Two new police cruisers are still being outfitted with all the equipment and should be on the road in February.

We have also started to remodel the police department. This is not a major renovation and has been done with minimal cost and no requests for additional funds to the budget.
