On October 17th 2023, the BUILDING ANNEXATION & ZONING COMMITTEE met to discuss the proposed Mural ordinance. The meeting began at 8:00. The main focus of the committee meeting was to hear and consider input, opinions and perspectives related to development of a proposed mural ordinance. The committee reviewed a first draft of proposed legislation which was previously requested. Several aspects of the proposal were explored in detail including expanding the allowable locations to include all zoned business districts. Attendees of the meeting agreed that we should move forward with the proposal and adopt the proposed legislation.

For the most part, this legislation has been met with support and enthusiasm among all in attendance.

The meeting was adjourned at 8:45pm.

Respectfully submitted this 21st day of November 2023.

John Hardig
